

<i>description</i>	<i>date</i>	<i>from</i>	<i>to</i>	<i>hours</i>
read assignment, draft architecture design	30.10.18	16:00	17:00	1:00
creating search bar component	30.10.18	17:00	18:00	1:00
learning iframe API	30.10.18	18:30	18:45	0:15
learning iframe API	31.10.18	12:40	14:00	1:20
implementing player with iframe API	31.10.18	15:40	16:40	1:00
reading how to get video metadata	31.10.18	18:15	18:45	0:30
implementing fetch and video container	2.11.18	11:10	13:00	1:50
implementing fetch and video container, infobox	2.11.18	15:00	15:40	0:40
buttons panel	2.11.18	18:00	19:50	1:50
fix problem with not loading new video	5.11.18	12:30	14:20	1:50
implement 'add to fav' button	5.11.18	16:40	17:40	1:00
learning how to use localStorage	6.11.18	12:50	13:30	0:40
implement delete button, move SearchResult component to App.js	6.11.18	14:30	15:30	1:00
add Modal window so video starts to play in modal after clicking on play button	6.11.18	16:10	17:30	1:20
refactoring	7.11.18	12:30	13:30	1:00
refactoring	7.11.18	15:00	17:30	2:30
navbuttons	8.11.18	11:20	13:35	2:15
debug and fix issue with add/remove to/from fav	8.11.18	16:00	17:00	1:00
refactor approach to store fav list - design	9.11.18	11:40	13:40	2:00
refactor approach to store fav list - actual refactoring	9.11.18	14:50	16:30	1:40
implementing sorting by added date asc/desc	9.11.19	17:00	17:45	0:45
designing pagination (not implemented yet)	10.11.19	15:40	18:00	2:20
complete sort function and update behavior in app.js	11.11.19	18:10	20:40	2:30
TOTAL				31:15:00
